Damian's CONTRACTORS CIVIL

Contract Number: X.004-130-2024/1

Presented By: Themba Tshabalala

Tender Briefing CIDB 3CE-4CE

CONTRACT INFORMATION

Location of the Site: CONTRACT NO: X.004-130-2024/1

EMERGENCY ROUTINE ROAD MAINTENANCE PROJECT ON NATIONAL ROUTE R26 SECTION 6 TO 9 FROM BETHLEHEM (KM 0.00) TO LADYBRAND (KM 46.41), NATIONAL ROUTE R34 SECTION 11 TO 12 FROM VREDE (R546 INTERSECTION) (KM 0.00) TO BOTHASPAS (KM 16.36), NATIONAL ROUTE R74 SECTION 1 FROM N5/R74 INTERSECTION (KM 0.00) TO FREE STATE/KWAZULU NATAL BORDER (KM 31.46)

Percentage to be subcontracted: 30% of the value of the amount Tendered by Damian's Contractors will be subcontracted. This is in line with the requirements of Clause C1.2.2 in the Main Contractors tender document.

- It is essential that A1 form is signed at the end of the day as it is a requirement to submit a tender so please don't leave until it is completed and signed.
- Three is ONE (1) package that will be subcontracted for CIDB level 3CE-4CE. It will have an estimation duration of 3 Months for 3CE-4CE:

  CIDB 3CE-4CE:

  - X.004-130-2024/1-SC103 (3CE-4CE)

X.004-130-2024/1

Roles of the Stakeholders

- Client: **SANRAL** is in charge of the roads and is the client who is providing the work and paying for it.
- Contract Engineers: **Q&A Engineers** manages the issuing of JI's and ensures that all work is completed and signed off according to SANRAL's standard specifications.
- Main Contractor: **Damian's Contractors** performs 70% of the project under their tendered rates and facilitates and manages the subcontracting of the remaining 30% of the project.
- PLC: The PLC creates a platform for project liaison, works execution, sub-contracting and employment facilitation.

Tendering Process

X.004-130-2024/1

Tendering

The Three Fundamental Aspects of Tendering

1. Adherence to the requirements of the Document and Tender Process

The minimum acceptance criteria for the adjudication of a tender is 100%.
Read your tender document, FORM C1.2.1 deals with the Conditions of Subcontract and should be read and understood.
Ensuring you have the correct software, Microsoft Office and Adobe Acrobat essential.

2. Returnable Schedules

Returnable Schedules must be completed and signed as required and supporting documentation should be attached.

3.Pricing Schedule

Pricing is crucial, tendered rates cannot be changed once the tender is awarded.
Calculating prices using First Principles.
Make sure all safety aspects are priced into the document, this includes PPE for employees, maintaining a Safety File and lights and stickers. The OHS Act is your guideline when quantifying these costs.

Guidelines to Functionality Criteria Points

	CIDB Package Category - As Advertised	1CE	2CE	3CE	4CE	5CE	6CE

X.004-130-2024/1

Tender Process For Targeted Enterprise

Stage 1 – Functionality

Note that no Targeted Enterprise may be prohibited from responding to the invitation to tender, however, preference shall be given to those Targeted Enterprises that adheres to the Targeted Enterprise Database criteria by means of a functionality evaluation. For this reason, “locality” and “CIDB grading and class” forms part of the functionality criteria and the biggest weighting shall be attached to these two criteria

Functionality is thus scored based on:

1. Locality (Targeted Areas)
2. CIDB grade and class (Targeted only)
3. Designated Group

Tenderers have to score a minimum number of points for functionality, e.g. 75/100 and tenderers that do not obtain the threshold are not further evaluated.

Stage 2. Price and Preference

Tenderers that obtained the minimum threshold for functionality are evaluated on their Price and Preference submissions, i.e.

i. Price= 80%
ii. Preference= 20%

The highest scoring tenderer for each subcontract package are checked for eligibility.
The Contractor shall state in the tender advertisement and in the tender documents that only one subcontract package shall be awarded to an individual entity at any one time, meaning that a Targeted Enterprise may be awarded a work package and on conclusion thereof may be awarded a subsequent work package, but more than one work package may not be awarded simultaneously.

If a tenderer tendered for more than one subcontract package and scored the highest points in more than one package, the Contractor shall award to the tenderer the work package that has the most economic benefit to the Employer.

Stage 3- Eligibility Check

Conventionally, eligibility is the first criteria to be checked during a tender evaluation process. However, in the case of Targeted Enterprises, which are typically of CIDB grades CE3 to CE4 and CE5, the eligibility check often results in a substantial number of tenderers to be partially compliant or non-compliant.

Subsequently, the evaluator must engage with several tenderers to resubmit proof of valid documents, which is not only a tedious task, but often results in confrontation, especially if tenderers are informed that they have been found noncompliant during the first stage of the evaluation process. With eligibility being the last check, the evaluator only must engage with the preferred tenderers for each subcontract package, should any documents need to be verified and/or resubmitted.

The highest scoring tenderer for each subcontract package are checked for eligibility with respect to the following criteria (if applicable, based on the CIDB grade required

1. Proof that the Tenderer is a B-BBEE level 1 or 2 contributor.
2. Proof that the Tenderer is an EME or QSE entity.
3. Proof that the Tenderer is registered on National Treasury's CSD.
4. Proof that the Tenderer is compliant with the COID act.
5. Proof that the Tenderer is tax compliant.
6. Proof that the Tenderer is registered with the CIDB in the required grading and class (not applicable to suppliers).

Important Notice!

If the highest scoring tenderer fails to meet any of the eligibility criteria, he will be given 5 calendar days to become compliant.

If the highest scoring tenderer fails to submit the requested information in the required timeframe, he shall be deemed non-compliant and the evaluator may check the second highest tenderer for eligibility. This process is repeated until a preferred tenderer has been identified to be proposed in the Tender Report.

X.004-130-2024/1

REQUIREMENTS FOR TENDERING (TRAINING)

X.004-130-2024/1

Returnable Schedules

Ensure all forms are filled in completely and signed if required. If the document is filled in by hand it should be done in Black Pen and any mistakes should be crossed out neatly and signed by the tenderer. The Clarification Meeting will deal with each Returnable Document but there are a few items I would like to highlight.

1. Submit a resolution of the directors on the company's letterhead authorising the tenderer to complete the tender. In the event that the tenderer is a joint venture, a certificate is required from each member of the joint venture clearly setting out:

    I. Authority for signatory.

    II. Undertaking to formally enter into a joint venture contract should an award be made to the joint venture; and

    III. Name of designated lead member of the intended joint venture, as required by condition of tender 4.13.2.

2. Ddeclaration certificate for local production and content for designated sectors.

3. FORM C1: The Contractor's general obligations:

M030.01: Fixed obligations (capped at 5% of tender amount)

M030.02: Value-related obligations (capped at 1% of tender amount)

M030.03: Time-related obligations (capped at 9% of tender amount)

exceed a maximum of 15 % of the Accepted Contract Amount, the Tenderer shall clearly set out his reasons for tendering in this manner in a letter attached to this page.

X.004-130-2024/1

JOINT VENTURE INFORMATION

CIDB Registration

Joint Ventures are eligible to submit a Tender provided that:

Every member of the joint venture is registered with the CIDB;
The lead partner has a contractor grading designation not lower than one level below the required grading designation in the class of construction works under consideration and possesses the required recognition status; and
The combined contractor grading designation calculated in accordance with the Construction Industry Development Regulations is equal to or higher than a contractor grading designation determined in accordance with the sum Tendered for a CE class of construction work or a value determined in accordance with Regulation 25(1B) or 25(7A) of the Construction Industry Development Regulations.

Scoring Preference (B-BBEE)

- In the event of a Joint Venture (JV), a project-specific consolidated (SANRAL project number indicated) valid B-BBEE verification certificate in the name of the JV, issued by a verification agency accredited by the South African National Accreditation System (SANAS) shall be submitted

Tender Evaluation

- In the case of a Joint (JV), JV partners will be evaluated in terms of their JV shareholding percentage.

Pricing the Tender

When pricing the tender documents the following considerations need to be made:

- SANRALs Standard Specifications and Drawings which can be found at www.sanral.co.za.
- Requirements regarding Minimum Salaries on site.
- Delays caused by Training and Mentoring.
- Fixed Obligations vs Line Item Rates.
- First Principle calculations for costs of Line Items.

Specifications and Drawings

- Only work that adheres to Standard Specifications will be signed off and paid.
- Standard Specifications and Drawings can be found at www.sanral.co.za.

Labour Costs

- What is required before people can be allowed site:

  1. Medicals
  2. PPE
  3. Inductions

- What are the BCCEI rates that all companies working for SANRAL are required to pay?
- Trainings of labourers for certain activities will be provided and Mentorship will be provided by means of Targeted group Co-Ordinator.

X.004-130-2024/1

Pricing – FIRST PRINCIPLES

- When calculating costs per unit from First Principles the tenderer needs to consider:
  1. Fixed Costs
  2. Variable Costs
  3. Production
- The total costs must be divided by the production achieved.

X.004-130-2024/1

Completion of Tender Document

Important Notes

- Familiarize yourself with each and every page of the tender document.
- Double check all returnable documents and that they are still valid.
- Make sure your Bill of Quantities are attached in both scanned format and Excel format.
- Take your time with this document – a small mistake might cost you the tender.
- Complete entire document in black ink and in neat legible handwriting
- Double check your email address and telephone number otherwise you will be unreachable.

X.004-130-2024/1

Returnable Documents

Definition

What is a returnable document?

- A returnable document is a document that needs to be handed in with your tender document in order for your tender document to be assessed
- Failure to hand in these documents may result in your tender being viewed as non-responsive.
- Be sure to sign the Returnable Schedules in every place its required.

List of returnable documents

- ✓ All returnable documents shall be explained on the subcontract documents obtained in the site office by the subcontractors.
- ✓ A1 – Certificate of attendance (Will be signed at the briefing this afternoon)
- ✓ A2.1 - Certificate of authority for signatory
- ✓ A2.2 - Certificate of single tender submission
- ✓ A2.3 - Certificate of fronting practices
- ✓ A2.4 – Declaration form
- ✓ A2.5 – Certificate of permission to conduct due diligence investigation
- ✓ A3.1 (SBD4) – Compulsory Declaration
- ✓ A3.2 (SBD9) – Certificate of independent tender
- ✓ A3.3 (SBD8) – Declaration of tenderers past supply chain management practices
- ✓ A3.4 – Registration on National Treasury Central Supplier Database
- ✓ A3.5 (SBD 6.2) – Declaration certificate for local production and content for designated sectors
- ✓ A3.6 – Local content declaration: Summary Schedule (Annexure C)

- ✓ A4 – Schedule of deviations or qualifications by tenderer
- ✓ A5 – Schedule of addenda to tender documents
- ✓ A6 (SBD2) – Certificate of Tax Compliance Status
- ✓ A7 – Tenderers Bank Details
- ✓ A8 – Schedule of current commitments
- ✓ A9 – Certificate of compliance with compensation for occupational injuries and diseases act, 1993
- ✓ A10 – Registration with CIDB
- ✓ A11 – Preferencing Schedule – Tenderer's BBBEE verification
- ✓ B1 – Schedule of work experience
- ✓ B2 – Schedule of Contractors equipment
- ✓ C1 – Contractors establishment on site and general obligations
- ✓ D1 – Schedule of tender compliance
- ✓ C1.1.1 (SBD7) - Form of offer
- ✓ C1.1.2 – Form of Acceptance
- ✓ C1.2.3 – Contract Data – Information provided by the tenderer
- ✓ C2.2 (SBD3) – Pricing schedule (Provided on compact disc)

Adherence to the requirements of the Document and Tender Process

CLOSING TIME, COMPLETION AND DELIVERY OF TENDERS

The tender and supporting documents shall be sealed in an envelope and clearly marked.

SC103 Sub-Contract X.004-130-2024/1 EMERGENCY ROUTINE ROAD MAINTENANCE PROJECT ON NATIONAL ROUTE R26 SECTION 6 TO 9 FROM BETHLEHEM (KM 0.00) TO LADYBRAND (KM 46.41), NATIONAL ROUTE R34 SECTION 11 TO 12 FROM VREDE (R546 INTERSECTION) (KM 0.00) TO BOTHASPAS (KM 16.36), NATIONAL ROUTE R74 SECTION 1 FROM N5/R74 INTERSECTION (KM 0.00) TO FREE STATE/KWAZULU NATAL BORDER (KM 31.46) and shall be delivered by hand.

The tender document and supporting documents shall be delivered by hand to 46 Biddulph Street, Harrismith 9880 or 27 Union Street Bethlehem, between 08:00 and 16:00, Monday through Friday, up until the closing date on Friday, 21 August 2026 , at 12:00 pm.
